Proactiv® is Suitable to all Skin types.

+ If you have... Sensitive Skin

You can apply products once a day until your skin gets used to them.

+ If you have... Dry Skin

Apply Skin Conditioning Serum again if your skin feels dry.

Q & A

Q How long does it take to see the difference?

A It varies depends on skin conditions, skin types and individual lifestyles. However, it is important to promote regeneration of the skin. Be patient and keep taking care of your skin.

Q This is my first skin care routine, so I do not know what to do.

A Proactiv® is very easy to utilize. The key tip is to make sure that the moisturizer is fully absorbed before you apply the next product.

Q How will I know if my skin is changing?

A It is important to keep checking your skin everyday. You may notice difference such as "My skin looks less oily." "My skin seems to have less pimples."

Q I am worried if scrubs would irritate my skin.

A The medicated cleanser contains very gentle scrubs. The key tip is to massage your face gently. You can adjust the frequency of usage as well until your skin gets used to it.

Q The Cleanser gets used up so quickly compared to other products. What Should I do?

A As a part of the benefits of Clear Skin Plan, members can purchase product with additional discounts. You can choose any products from the catalog, so you can customize your kit for your best needs.

Q Do I need to use all the products?
I want to use some other cosmetics as well.

A Proactiv® is designed to prevent Acne. Proactiv® products can be utilized with other cosmetics as long as they are not for exfoliation.
